# RM65 DEHUMIDIFIER

## THE PROBLEM

EIPL are a recognized world wide supplier of flood restoration drying equipment. We offer a variety of dehumidifiers and air movers to remove water and assist with drying areas after water damage. Following a flood, whether it is in your basement or office, it's vitally important to restore the damaged area to good order as soon as possible to protect your health from microorganisms, mold and bacteria that may grow and ultimately prevent further damage. Whether it is a flash flood, heavy rains or water main break, EIPL have the equipment to handle the harshest environments and assist with proper restoration.

## EIPL'S ROTAMOULDED RANGE

When EIPL launch a product, you can be sure its aimed at specific customers needs. The RM65 is the first in a new generation of rotamolded dehumidifiers specifically designed to meet the Cleaning & Restoration Industries specifications. The rotamolded polyethylene housing is dent resistant and offers superior durability, while also protecting furnishings when in use. Coupled with the ruggedness and EIPL's high quality standards, this model forms the base of a new exciting generation of polyethylene products.

## SAVE TIME AND MONEY

No more worries of forgetting to empty buckets, due to customer demands the RM range of products incorporate high capacity condensate pumps. The 3m maximum pump height will ensure no installation is too difficult. Install, connect to a permanent drain, and forget until the job is complete. With the aid of a purge facility, all residue water can be drained from the pump tank prior to moving the machine therefore eliminating the chances of spillage.

## LOW TEMPERATURE OPERATION

The RM65 is equipped with a "Reverse Cycle" defrost system, ensuring a quick and efficient clearing of ice from the coil, allowing a minimum operating temperature of 3°C.

## ATTENTION TO DETAIL

Sometimes the less expensive features are overlooked. The RM65 is supplied complete with cable and hose tidies, Not only will this reduce the possible damage which the units are transported, but also provides easy installation when positioning the equipment.

## PROVEN PERFORMANCE

The EIPL RM65 Professional Dehumidifier is a rugged, yet mobile piece of equipment that will operate under extreme conditions and pull large amounts of moisture from the air. Whenever there is a need for fast dependable, energy-efficient drying, EIPL can provide the answer. The high efficiency Rotary compressor ensures the maximum extraction with the lowest running costs.
